Stuart Pumps Limited

Stuart House, Hargham Road, Shropham, Norfolk, NR17 1DT, UK.

Used 8"x6" Armstrong LPCB approved Fire Pump sold to Philippines.  
The set was fully checked and tested prior to sale with test videos posted on our YouTube channel for the customer to view.

Used 6"x6" Godwin CD150M sold to quarry company in Cumbria.  
Fitted with Godwins reliable venturi/compressor priming system offering rapid re-prime rates from dry.

Used 8"x6" Weir Multiflow 360G end suction pump sold to customer in Lithuania.

Full road transportation suction dredger sold to a customer in Poland. Included in the sale was a used FG Wilson 27kva generator, Godwin ET80 pump, pipework and pipe floats all fully checked and re-painted prior to loading on the customers own vehicle for transport.

At our new 50acre site we now have the space available to deliver large projects with ease.

New 8"x8" SPP EY200 self-priming pump on fixed height trailer sold to customer in Sweden.

Pump incorporates auto float control and SMS monitoring system. At the Stuart Group we hold new pumps in stock to avoid lengthy lead-times when ordered direct from manufacturer. This also enables quick response should you want to purchase pumps for emergency flood relief.

Used Selwood S300 sold to a customer in Finland. The 12" automatic self-priming unit is capable of flow of up to 1200m<sup>3</sup>/h and is housed in a full sound attenuated box canopy reducing sound levels to at least 60dBA at 7m. The set was fully checked and tested at our workshop facilities in Shorham and re-painted Red prior to sale.

## Welcome back from retirement!

We welcome back John Caden into the sales team. Having retired early in February 2017 he found that he couldn't keep away from the pump industry and jumped at the opportunity to return to Stuart Pumps sales team.
