

PERFORMANCE CURVES

Each pump is tested in accordance with ISO 2548 class C.

┘ = Optimum operating point.

CP/CT/CS
LT Curve No. 410*, 411, 412

* Due to power limitation when the pump is installed dry, the following impellers are not available for CT versions: Curves 410, 430, 435, 441, 480 and 481.
